

CAPABILITY STATEMENT

BACKFLOW PREVENTION

THERMOSTATIC MIXING VALVES

CORE COMPETENCIES

MB Plumbing Group emphasises on giving each and every project we are involved in a touch of class from start to finish.

We have accreditations in Backflow Prevention & Thermostatic Mixing Valves. We are accredited Enviro Plumbers with the Master Plumbers Association specialising in Recycled water, Rain water & Grey water installations.

We cater for each project we are involved in with the highest attention to detail whether it be large or small. Our capabilities are hydraulic projects from \$100,000 to \$2mil packages.

COMPANY DATA

MB Plumbing Group has been involved in residential, commercial, industrial and civil plumbing projects throughout Sydney City and the greater Sydney area.

Our diversified business caters for the civil plumbing and construction industry. We have at any one point 8-14 employees depending on size of projects.

We have senior management, project managers, WHS manager, leading hands, tradesman and apprentices.

PAST PERFORMANCE

MB Plumbing Group over the past 23 years have built strong relationships with clients allowing us to be involved in projects which are of the highest standard and quality.

DIFFERENTIATORS

MB Plumbing Group has diversified its business into civil storm water contracting. Being more equipped than most plumbing companies in Sydney, MB Plumbing Group offers more than most can.

From small to large excavators, Skid steers and Boggie tipper trucks MB Plumbing Group will do professional and cost effective job from start to finish by doing all the works "In house".

We own all of our tools, own plant and equipment ranging from 8 and 13m Scissor lifts, 8t and 13t excavators, trucks, work vehicles.
